RECIPE BOOKLET & MANUAL

WHITE WINE SANGRIA

BY IMUSA CHEF TEAM

- 1 cup fresh squeezed orange juice (about 4 oranges)
- 1 bottle white wine, like Pinot Grigio
- ¼ cup agave nectar
- 1 red apple, diced
- 1 cup pineapple, diced
- ½ cup seedless grapes, cut in half
- 1 lime, thinly sliced
- club soda to finish

Use your IMUSA Citrus Juicer to extract the juice of 4 oranges, to yield 1 cup of juice. In a large pitcher, combine the orange juice, white wine, agave nectar, apple, pineapple, grapes, and lime. Stir until well combined. Reserve in the refrigerator until ready to serve.

Add 2 ice cubes to each glass, then pour the sangria until the glass is $\frac{3}{4}$ full. Use a long spoon to scoop some fruit into the glass. Top off with club soda. Cheers!

Takes about 15 minutes. Makes 5-6 servings.

Citrus Juicer

The IMUSA Citrus Juicer will be the main squeeze in your kitchen. The sleek, contemporary design provides an easy to use one lever operation when making juice. The sturdy cast base and non-slip rubber feet provide stability when squeezing your favorite citrus fruits. A stainless steel strainer separates seeds and pulp from the juice as it flows into the cup below. Try fresh orange or grapefruit juice at breakfast for a healthy start to your day or freshly squeezed lemons for a homemade lemonade that will impress your guests!

The Manual juicer extracts juice from oranges, lemons, limes, and other citrus fruits easily and efficiently.

For extracting juice, place a cut citrus half over the strainer. Apply pressure to the level in a downward motion to extract maximum juice.

Pour the nutrient filled juice into your favorite glass and enjoy!

Wash the stainless steel cup and strainer after each use with soap and water. The cup and strainer are top rack dishwasher safe.
